An ISO 9001 Certified Company

MKK Metal Sections Pvt. Ltd.

A versatile business group with strong foundation

Building Trust Delivering Value.

With an annual production capacity of 2.5 lakh metric tons and a product range spanning over a thousand products, MKK is recognized all over for its contribution in high composition grade, high tensile, value added products.

Any size, any customization – MKK is always ready to rise to the challenge.

We are now a multi-location, multi-product company manufacturing Circular, Square, Rectangle, Octagonal MS Black Pipe & Hollow Sections, Galvanized tubes and structures, Solar Module Mounting Structures, Shutters, Purlins, Color Coated Roofing Sheets, Warehouse Racking Systems and various other cold roll formed sections.

Amongst our many strengths, our extremely dedicated and experienced team overshadows all our assets. With experiences spanning over decades at the helm of every department, problem-solving and constant R&D is inevitable.

Today our brand, METPRO is synonymous with commitment, innovation backed with a never-say-no attitude, trust and without a doubt, quality.

State-of-the-art manufacturing facility

2 Manufacturing Units | 32 Production Lines | 0.25MT Annual Capacity

Years

1100+
Products

500+
Workforce

800+
Customers

**Focussed on
engineering excellence.**

Today, being environmentally conscious and reducing our carbon footprints is the only way to go forward. With our ENVIRON range of products, METPRO is trying to do its part in maintaining a cleaner and greener Earth.

MKK builds module mounting structures that are the backbone of a solar power plant. These support structures raise solar panels at appropriate angles to ensure that they receive maximum solar irradiation.

Module Mounting Structure

MKK can cater to structural requirement of various categories such as - Ground Mounted Solar Parks, Rooftop Solar Projects, Solar CarPorts and such. For easy erection, and to avoid wastage or rework at site, the purlins can be supplied in custom sizes along with post forming work such as punching, slotting and notching as per customers requirement.

We have an in-house Galvanising Plant

We have a 9 m tank, which strengthens our capabilities to supply all accessories such as cable trays, solar trackers, handrails and such. Any METRPO GALV product, pipe or structure, will go through a automated seven step process that makes sure the entire surface of the product is completely coated.

Our products are -

Environmentally Sustainable

Abrasion Resistant

Maintenance-Free
Life of 15 Years

Unnat Bharat Abhiyan PM-KUSUM

(Pradhan Mantri Kisan Urja
Suraksha evam Utthaan Mahabhiyan)

Scheme is aimed at ensuring energy security for farmers in India, along with honouring India's commitment to increase the share of installed capacity of electric power from non-fossil-fuel sources to 40% by 2030 as part of Intended Nationally Determined Contributions (INDCs).

MKK is honored to be able to be a trusted supplier of mounting structures for solar pumps that our irrigating our farmlands. So far, our supplies have helped bring

3000 solar-enabled pumps

to life and the count continues to be on.
